

SPECIAL SECURITY ALERT 2025

STRIKE DOWN THE THREAT!

We decree and declare that evil threats of terrorism against America and the nations of the world are thwarted by the Mighty Hand of God as we pray.

January 2025 began with an act of terrorism in the US. Intel indicates there could be many trained fighters in the US prepared to carry out similar attacks. There have been threats and intel regarding acts of violence

against the land and people of our nation. God is our Hope. God is our Protector. God is our Refuge. God is our Victory. We have prayed around the borders of our nation, our states, our communities, our neighborhoods, our homes. Continue to declare the Glory of the Lord as the protector of all that concerns you. As we pray, these threats can and will be exposed and dismantled.

- Pray to expose and dismantle terrorist sleeper cells in the US and around the world.
- Declare security at our nation's borders – that our gates are closed to terrorist invasion. Pray that those who have already entered our nation will be exposed and arrested.
- Lord, send Angelic Warriors to guard the gateways and vulnerable sites of our nation.
- Lord, give law enforcement and security authorities intel about threats, organizations, and strategies of evil and destruction. Give them strategies from Heaven to dismantle all threats and strategies before they are set in motion.
- Pray that government leaders receive the intel they need and that they make wise decisions regarding national security. Pray they are empowered to do what is right.
- Pray to expose and dry up the finances behind terrorist activities and reveal those who are the financiers.
- Pray for the protection of the innocent – especially those who are vulnerable and without the means to protect themselves.
- Pray for spiritual awakening that all would come to Christ and know that God is our Provider, Protector, and Salvation.
